PROJECT SHOWCASE

SEE: GITHUB + PORTFOLIO
FOR MORE

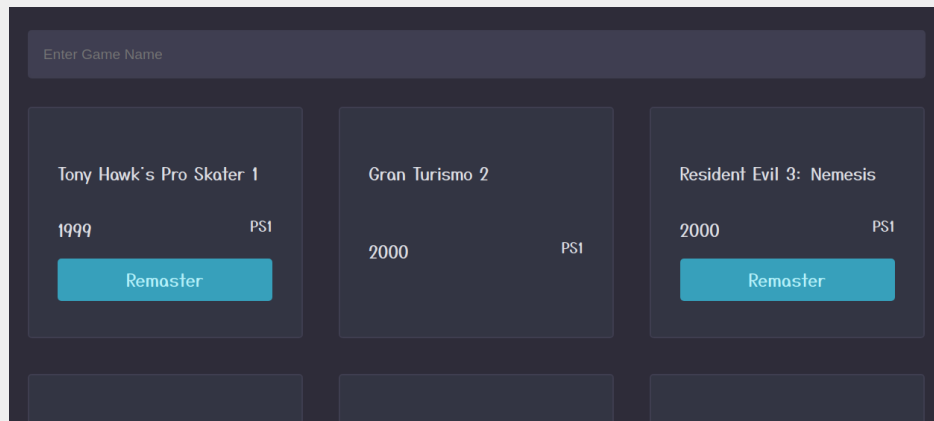

MOVIE APP

<https://nextjs-movie-app-git-main.rafaelg1402.vercel.app/>

- Built with HTML, CSS, JS and React
- Uses NextJS for hosting and routing
- React hooks, API fetching, state management, routing management and JSON
- Showcases my love of responsive and clean design
- This project introduced me to new tools and expanded my experience

GAMES LIST

<https://react-games-list.netlify.app/>

- Built with HTML, SASS, JS and React
- Uses Netlify for hosting
- React hooks, API fetching and state management
- I made this project's JSON file to build my knowledge on this process and hosted it on GitHub which helped me understand how to host something externally
