CERTIFICATES

THE FRONTEND DEVELOPER CAREER PATH

SCRIMBA - PER HARALD BORGEN
SEPT 2020

- Scrimba is a next-generation platform for learning how to code. Their courses include screencasts which you can stop at anytime and play with the code directly.
- I am currently doing the Front End development path which includes sections on HTML & CSS, Responsive Design, & Flexbox APIs, Git, React and a final project which is building a Netflix clone.

THE WEB DEVELOPER BOOTCAMP

UDEMY - COLT STEELE
JAN 2019

- This course included sections for introduction to web dev, HTML & HTML5, CSS & Bootstrap, JS & DOM manipulation, APIs, GIT & a final project using MongoDB.
- The course came with over 60 coding exercises & over 63 video-based learning

THE COMPLETE WEB DEVELOPER: ZERO TO MASTERY

UDEMY - ANDREI NEAGOIE
JAN 2019

- This course covers over 37 hours of video-based learning including HTML5, CSS, Responsive Design, Git, NPM & React.
- Learned semanticUI, Flexbox, ES6-ES10, Asynchronus JS and JSON.
- The course is broken down into separate sections to zone in on HTML, CSS, JS, API, & JS Frameworks.
